

BLEND PREP

Durable Synthetic Tack Cloth

Close up of Apertured mesh

By popular request, the Gerson® Blend Prep dry tack cloth for basecoat and between-coat cleaning, is available in a Large size that provides bulk and working ease.

The 9" x 18" Blend Prep is produced with synthetic hydro-entangled fibers that are locked together to provide a lint free, durable and tear-resistant fabric. The special dry tackifier formulation picks up all surface contamination and the fabric surface is apertured to hold the captured dust and particulates within its pores.

The Blend Prep is packaged 12 per display box, 12 boxes per case of 144.
